

Grade 5

- Unit 1: Understanding volume (10 days)
- Unit 2: Developing multiplication and division strategies (12 days)
- Unit 3: Using equivalency to add and subtract fractions with unlike denominators (12 days)
- Unit 4: Expanding understanding of place value to decimals (10 days)
- Unit 5: Understanding the concept of multiplying fractions by fractions (12 days)
- Unit 6: Comparing and rounding decimals (10 days)
- Unit 7: Interpreting multiplying fractions as scaling (12 days)
- Unit 8: Developing the concept of dividing unit fractions (10 days)
- Unit 9: Solving problems involving volume (10 days)
- Unit 10: Performing operations with decimals (12 days)
- Unit 11: Classifying two-dimensional geometric figures (10 days)
- Unit 12: Solving problems with fractional quantities (12 days)
- Unit 13: Representing algebraic thinking (8 days)
- Unit 14: Exploring the coordinate plane (10 days)
- Unit 15: Finalizing multiplication and division with whole numbers (10 days)
